Professional Summary

Over **15+ years** of experience across supply chain operations, procurement coordination, inventory management, and data analytics — primarily within fast-paced, compliance-driven environments including the chemical industry. I specialize in transforming complex supply chain data into actionable insights that improve inventory accuracy, optimize stock levels, and enhance business performance.

In my current role, I manage large-scale datasets across sales, procurement, and inventory — overseeing **7,000+ SKUs** and **6,000+ customers**, developing dashboards for real-time KPI visibility. With a strong background in chemical inventory management, I understand the critical importance of safety, regulatory compliance, and expiry-sensitive stock handling.

Core Focus

- Operational Excellence
- Data-Driven Decision-Making
- Cross-Functional Collaboration
- Chemical Industry Compliance
- Technology-Driven Efficiency

Top Skills

Supply Chain Analytics & BI

Transforming complex data into actionable insights for inventory accuracy and business performance.

Demand Planning & MRP

Material Requirement Planning aligned with sales orders, lead times, and seasonality to prevent shortages.

Cross-Functional Leadership

Aligning supply chain strategies with Sales, Procurement, Finance, and Operations for broader business goals.

Chemical Supply Chain

Safety, regulatory compliance, and expiry-sensitive stock handling including FEFO practices.

CURRENT ROLE

Data Analyst – Chemstock

December 2025 – Present · Dubai, UAE

Data & Master Data Management

Collect, clean, and validate large datasets across sales, inventory, and procurement. Maintain master data for **7,000+ SKUs** and **6,000+ customers** ensuring high accuracy.

Inventory & Stock Optimization

Monitor stock levels, turnover ratios, and aging inventory. Identify dead stock and near-expiry chemicals, recommending clearance actions. Analyze expiry-sensitive inventory to minimize losses using FEFO rotation.

Dashboards & Reporting

Develop Power BI and ERP dashboards for real-time KPI visibility — sales, stock levels, order status. Generate weekly/monthly reports on sales performance, inventory health, and operational efficiency.

Customer Support & Sales Coordinator

September 2022 – December 2025 · UAE

Order Accuracy & Delivery

Validated pricing, discounts, and product details ensuring **100% order accuracy**. Proactively communicated delays and coordinated revised schedules to improve on-time delivery.

Customer Retention

Built strong relationships through proactive communication and personalized support, driving repeat business and long-term client retention.

Cross-Functional Collaboration

Worked with Sales, Marketing, Finance, and Operations ensuring seamless order handling, queries, and deliveries while consistently meeting service KPIs.

ANCHOR ALLIED FACTORY LLC · 2018–2022

Chemical Raw Material Store Keeper

September 2018 – September 2022 · UAE

MRP & Material Availability

Implemented Material Requirement Planning aligning stock levels with sales orders and lead times to prevent shortages and delays.

Inbound Logistics & QA

Inspected and verified **100%** of incoming import and local materials against purchase orders. Coordinated same-day sample submissions to QA/QC and R&D.

ERP & Inventory Accuracy

Posted Goods Receipt Notes (GRN) in ERP same-day. Conducted physical stock checks **3+ times per week**, reconciling with ERP data to prevent variances.

Safety & Compliance

Trained store personnel and forklift operators on chemical handling, PPE usage, and emergency response. Enforced FEFO practices minimizing expiry risks.

WESTERN TANKS & PIPES · 2014–2018

Storekeeper

February 2014 – August 2018 · UAE

Key Achievements

- Zero incidents of lost or unsecured goods
- 100% quality compliance on incoming materials
- Reduced material wastage through effective inventory control
- Improved audit readiness through accurate stocktaking

Provided daily updates on incoming materials to Planning and Procurement teams, enabling accurate demand forecasting. Streamlined material issuance to Engineering teams, improving workflow continuity. Collaborated with Quality Control to verify incoming materials and supported project execution with regular material status reports to Project and Procurement Managers.

ELITE FOODS & INNOVATIONS · 2010–2013

Dispatcher

August 2010 – November 2013 · India

Route Optimization

Optimized daily routing and scheduling of field units, enhancing delivery efficiency and ensuring on-time fulfillment of customer orders.

Real-Time Communication

Strengthened communication between dispatch and field teams by proactively sharing order updates and traffic insights, minimizing delays.

Operational Reporting

Generated detailed operational reports for senior management supporting performance tracking and process improvements. Maintained accurate documentation for compliance.

Education

BBA – Business Administration

Albedo School of Business Management

June 2014 – July 2017

Business Administration and Management, General

1

2

MBA – Supply Chain Management

Jaipur National University

June 2019 – June 2022

Logistics, Materials, and Supply Chain Management

15+

Years of Experience

Across supply chain, procurement, and analytics

7K+

SKUs Managed

Product categories, specs, pricing, and stock levels

6K+

Customers

Master data maintained and analyzed

Get In Touch

Open to opportunities in supply chain, data analytics, and procurement leadership across the UAE and beyond.
